Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2017 - December 31, 2017

Filing Confirmation Number: 0008064071

Filing Deadline: January 16, 2018

FRN: 0001568880

Filing Date: 01/16/2018 09:17 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? No

Were you a small entity at any time during the three years prior to the end of the reporting period? No

Date that you ceased to be a small entity?

Company Information

Company Name: GCI Communication Corp.

Brand Names: GCI
Alaska DigiTel
Alaska Wireless

PO Box:

Street Address: 1900 L Street, NW Suite 700

City: Washington

State: DC

Zip Code: 20036

Contact Name: Chris Nierman

Contact Phone: (202) 457-8815

Contact Fax:

Contact Email: cnierman@gci.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: <https://www.gci.com/wireless/phones-devices/hearing-aid-compatibility>
<https://www.gci.com/wireless/phones-devices#compare>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Handset Labels; In-store signage; Online information

Methodology for Functionality Levels

Talk & Text: Voice and Text functionality, limited web browsing

Smartphone: Smartphone functionality

Report Remarks

GCI also has offered the MaxWest Nitro 7.1 Phablet (FCC ID: ONGNITROTAB71) from 7/15 to 6/17 (GSM 850,900,1800, 1900,2100, M and T Ratings of N-A, Smartphone). Consistent with issues GCI encountered with its 2016 HAC Report, GCI is currently unable to include this device on its 2017 Report due to error messages from the online reporting system. GCI previously sought assistance from the FCC Helpdesk to fix this issue (Ticket No. 2913104), and understands from FCC Staff that the device has been removed from the Equipment Authorization System and, as a result, the HAC database will not accept it. Pursuant to guidance previously provided by FCC Staff, GCI will file its 2017 Report without the inclusion of this device.

You have reported the following handset model summary information.

Total number of handsets offered: 84

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	56	75%	3	4%	16	21%	75
CDMA	8	89%	1	11%			9
LTE	49	88%	3	5%	4	7%	56

Functionality Level

Talk & Text

Remarks

The documentation for this handset contained no information regarding meeting the M3 rating criteria over GSM at 1900 MHz via power reduction, and independent research also uncovered no such information, so out of an abundance of caution GCI has answered "no" to this question.

M-Rating: M3

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911? N

Functionality Level

Smartphone

Remarks

The documentation for this handset contained no information regarding meeting the M3 rating criteria over GSM at 1900 MHz via power reduction, and independent research also uncovered no such information, so out of an abundance of caution GCI has answered "no" to this question.
